

TILESTONE

POOLS & SPA'S

A B O U T

All Tilestone pools are **fully insulated** with a thermal conductivity of $0.25 \text{ W / m}^2\text{K}$. The Tilestone **self-supporting steel frame** enables the pool to be installed above or below ground, ideal for roof-top installations or basements. Contact our design team and let us help you to design the pool that dreams are made of. Sectional pool structures also available.

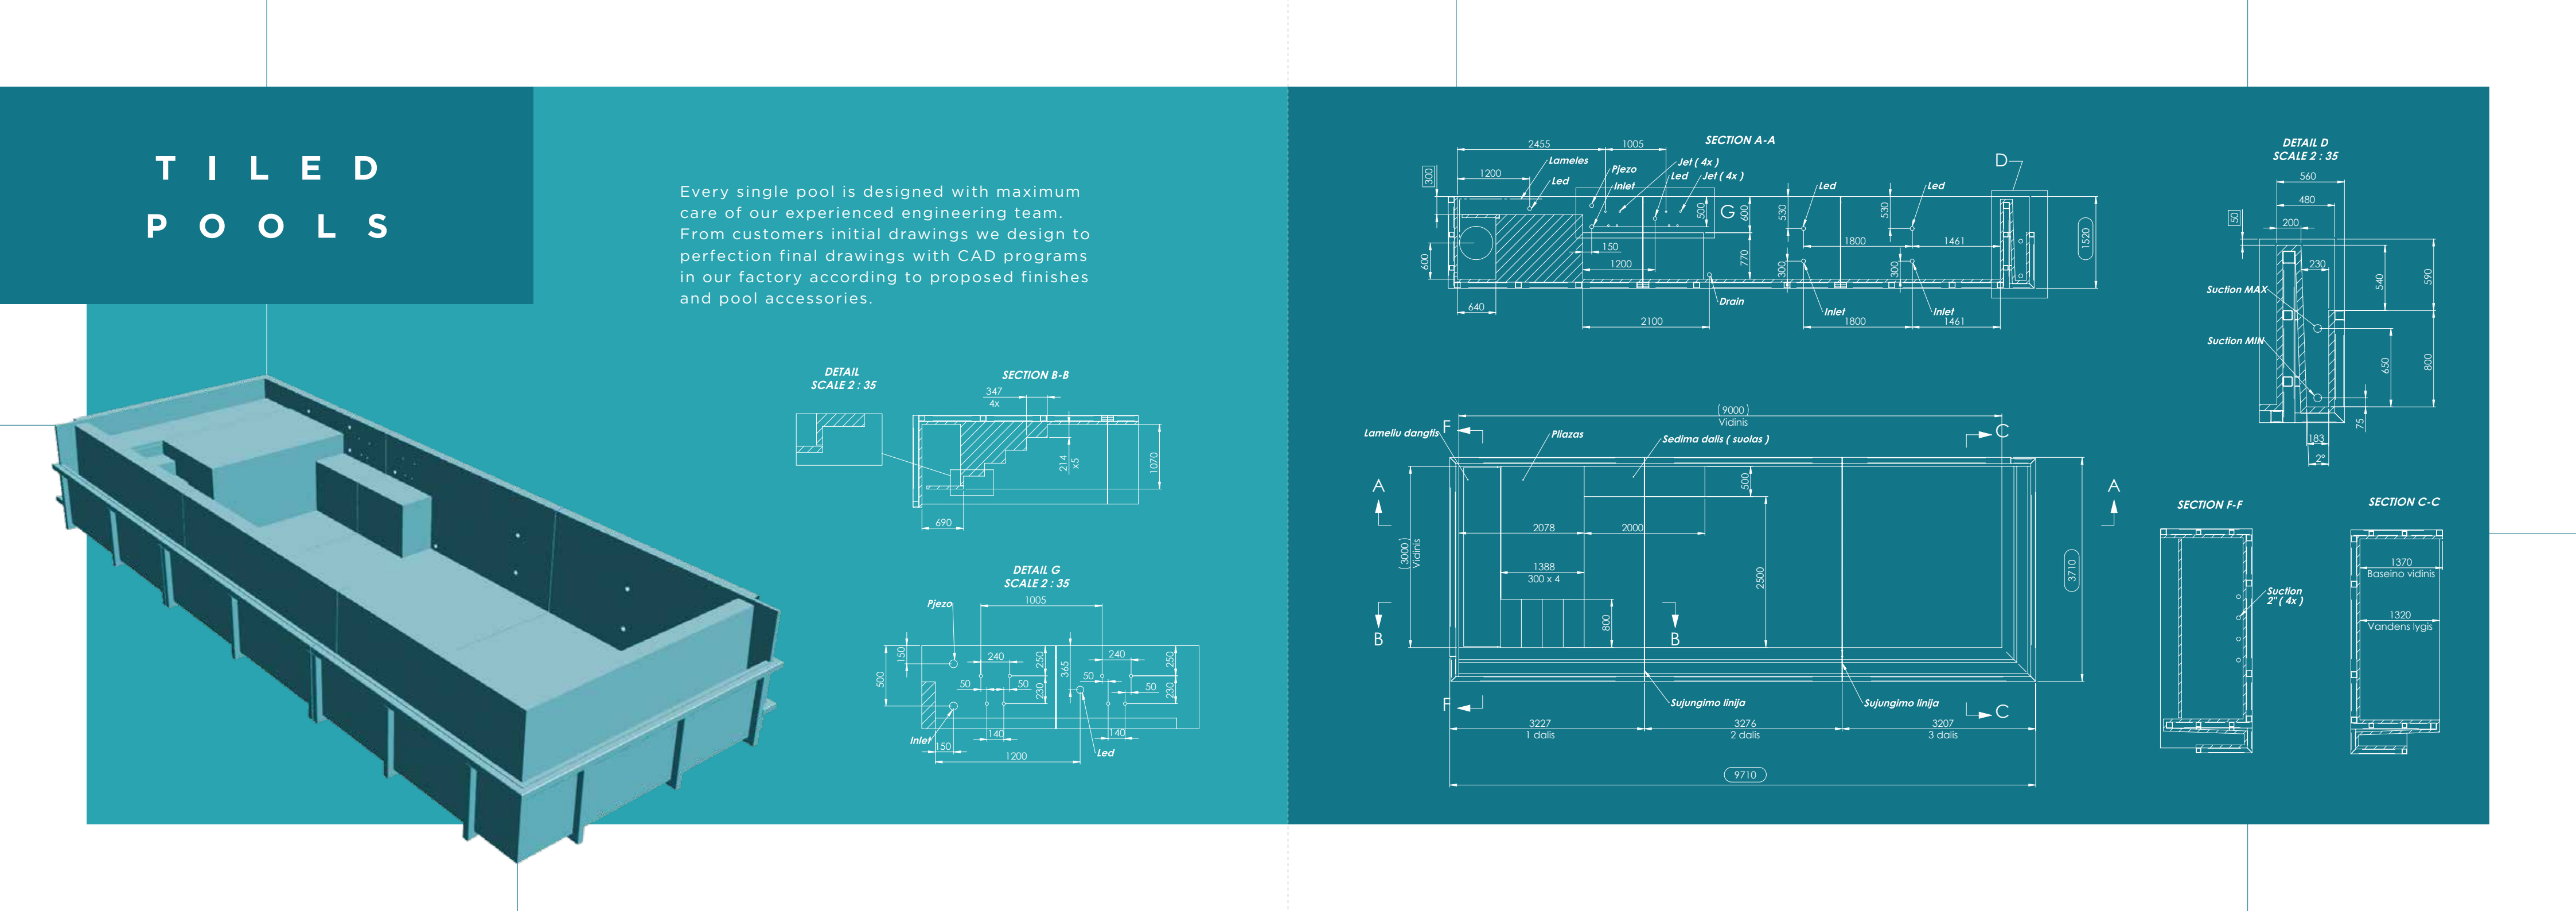

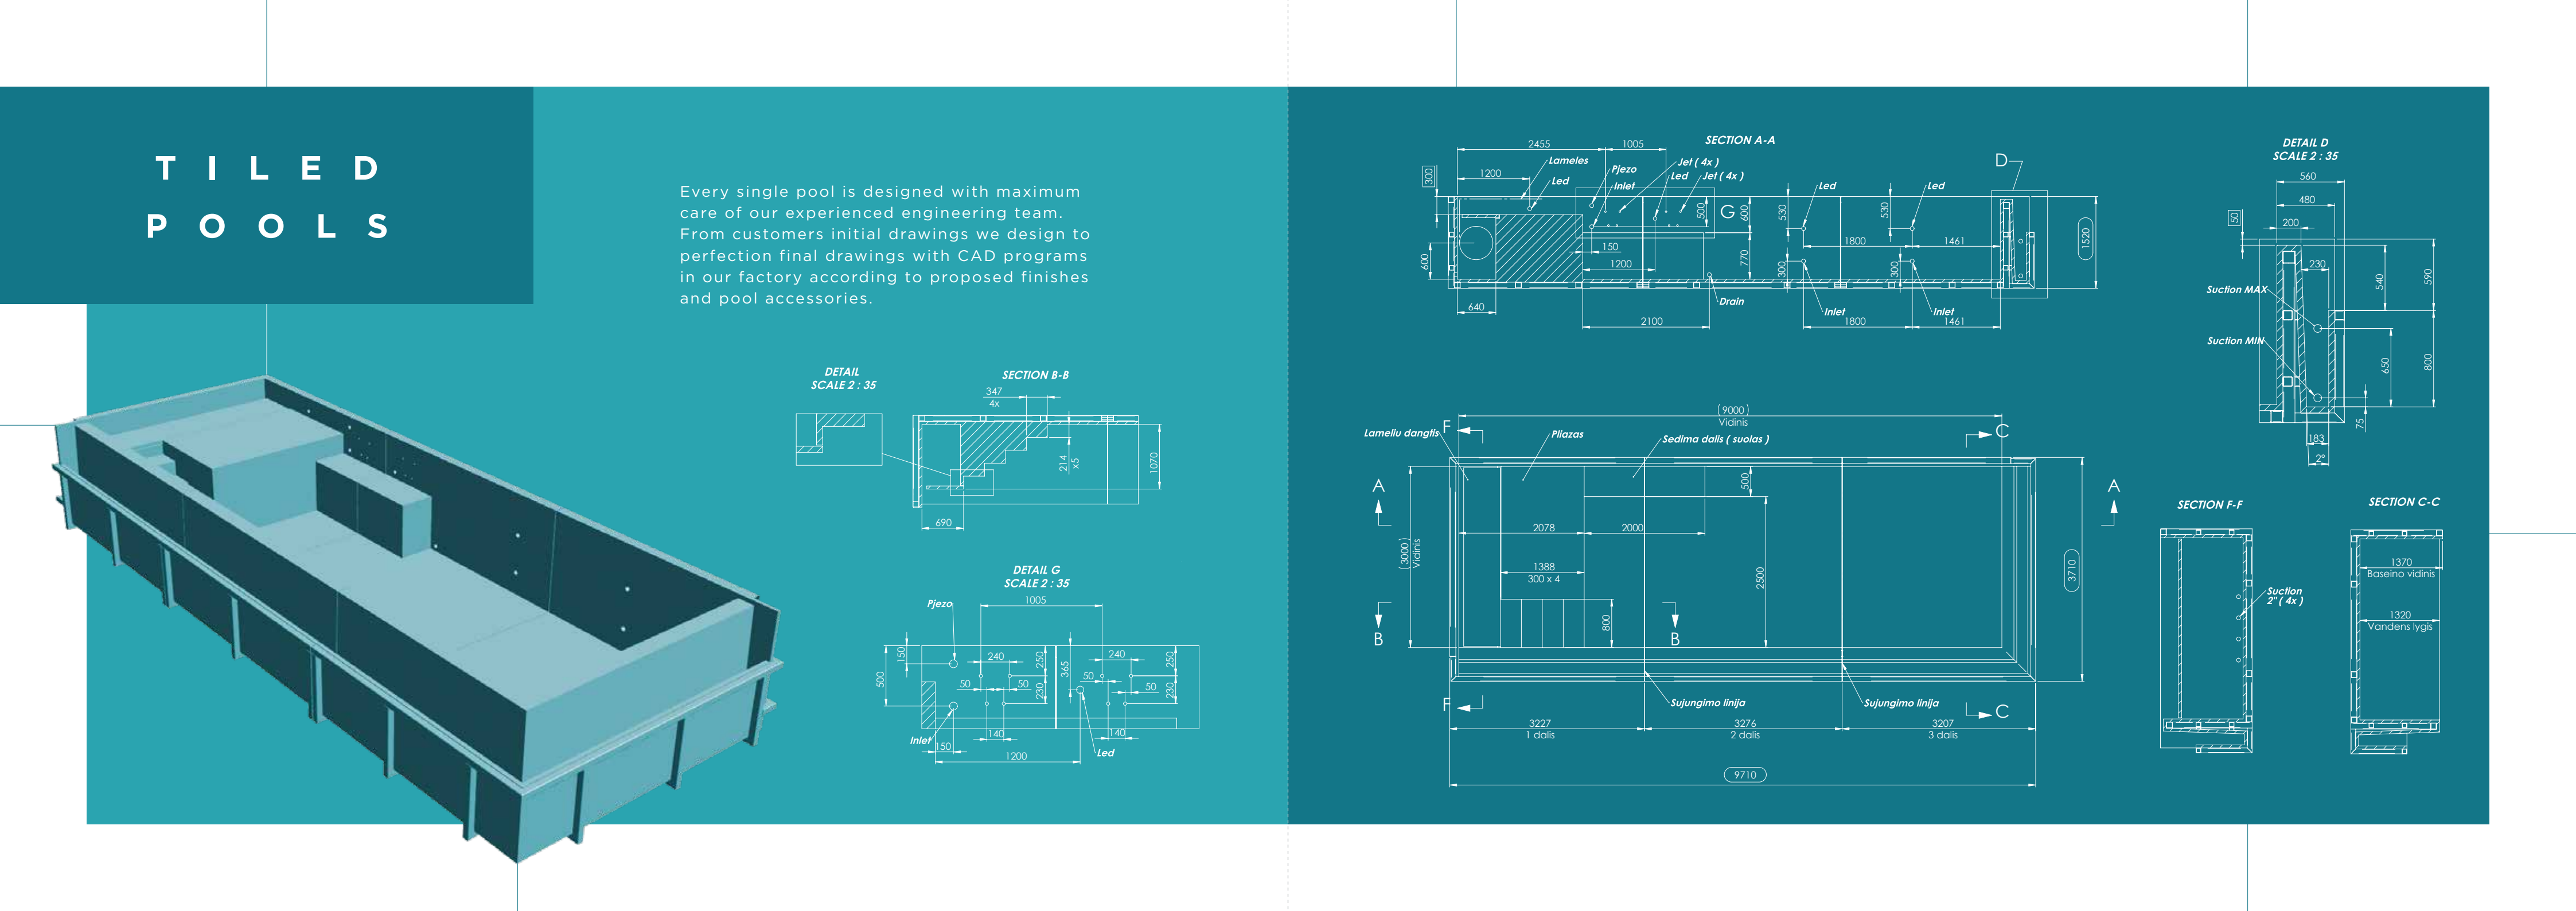

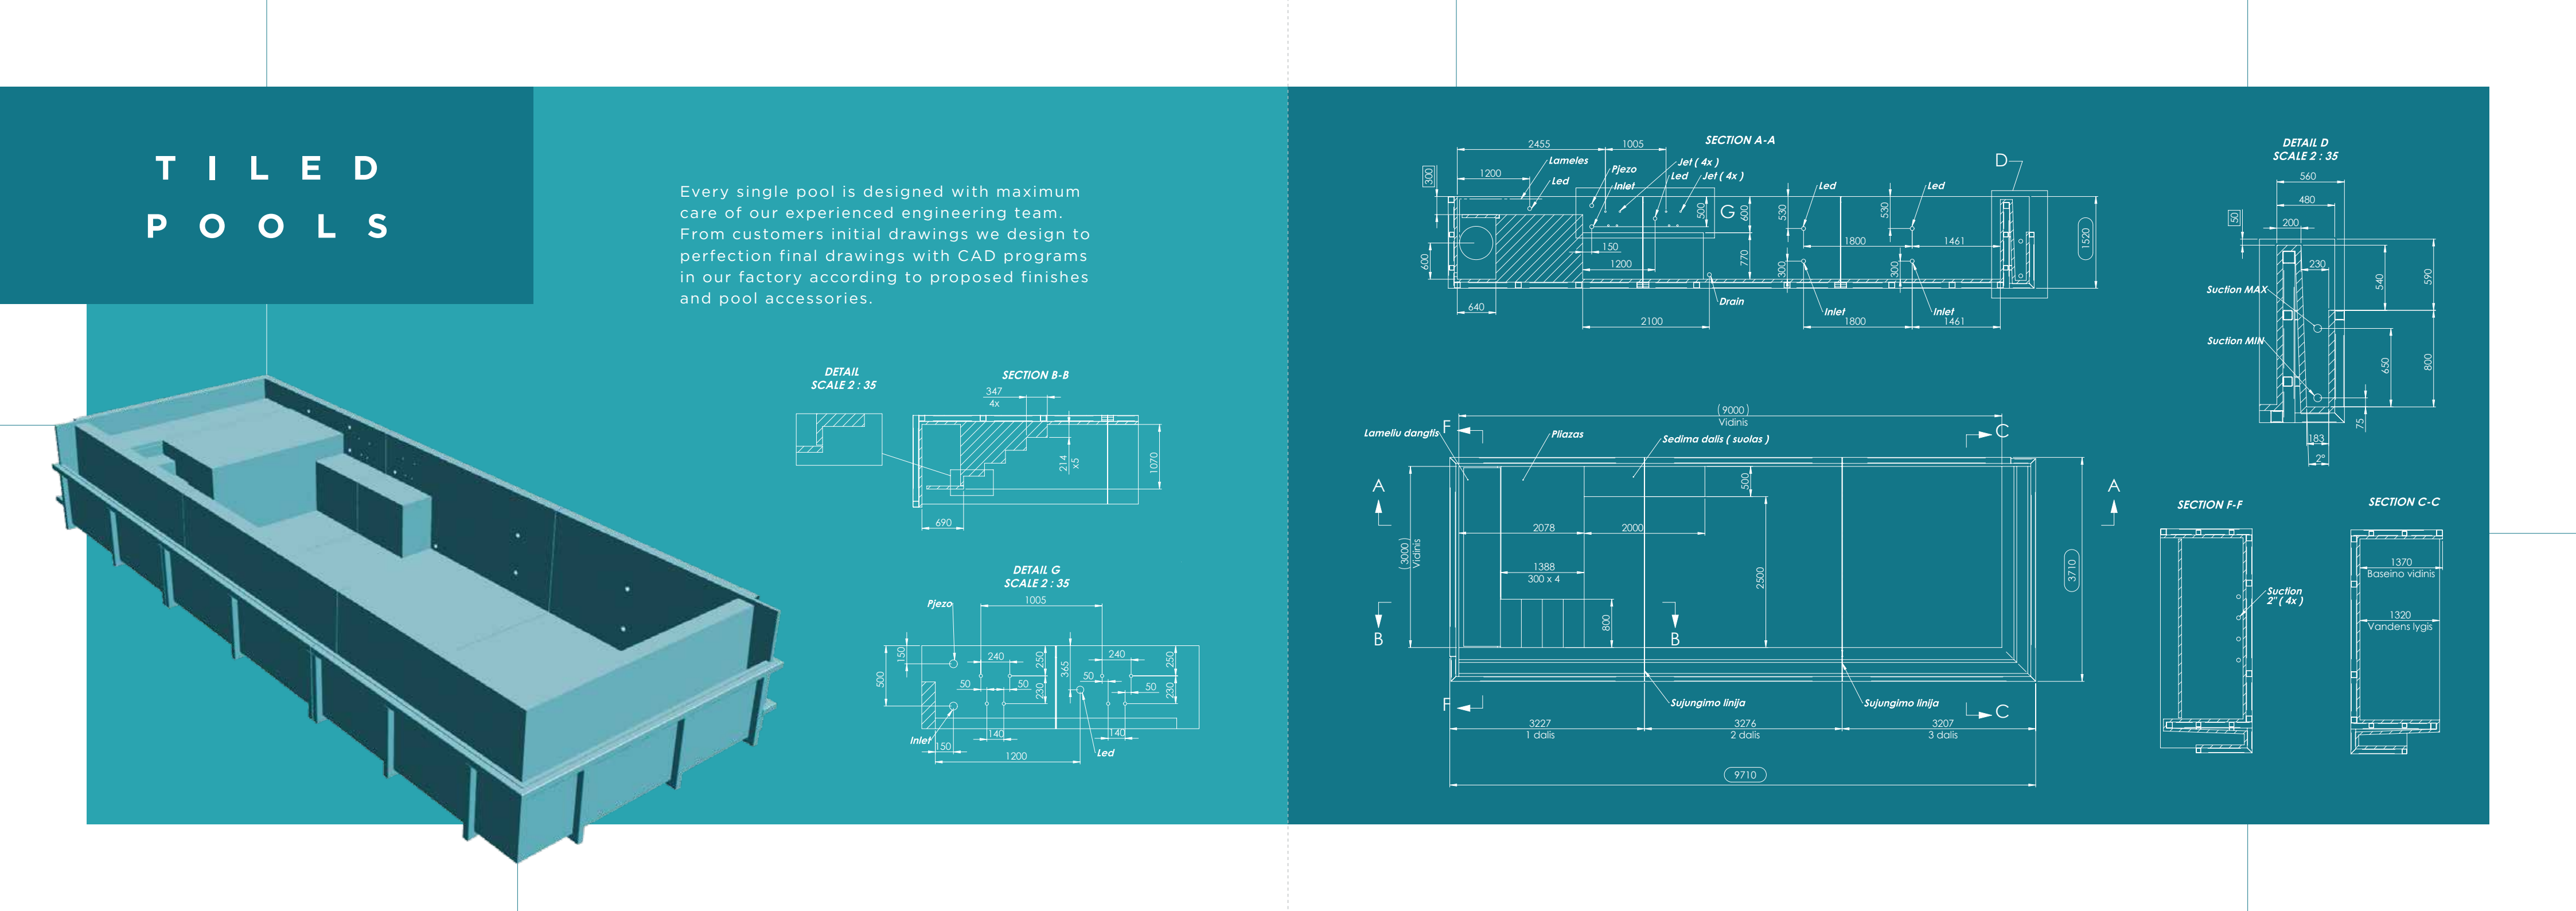

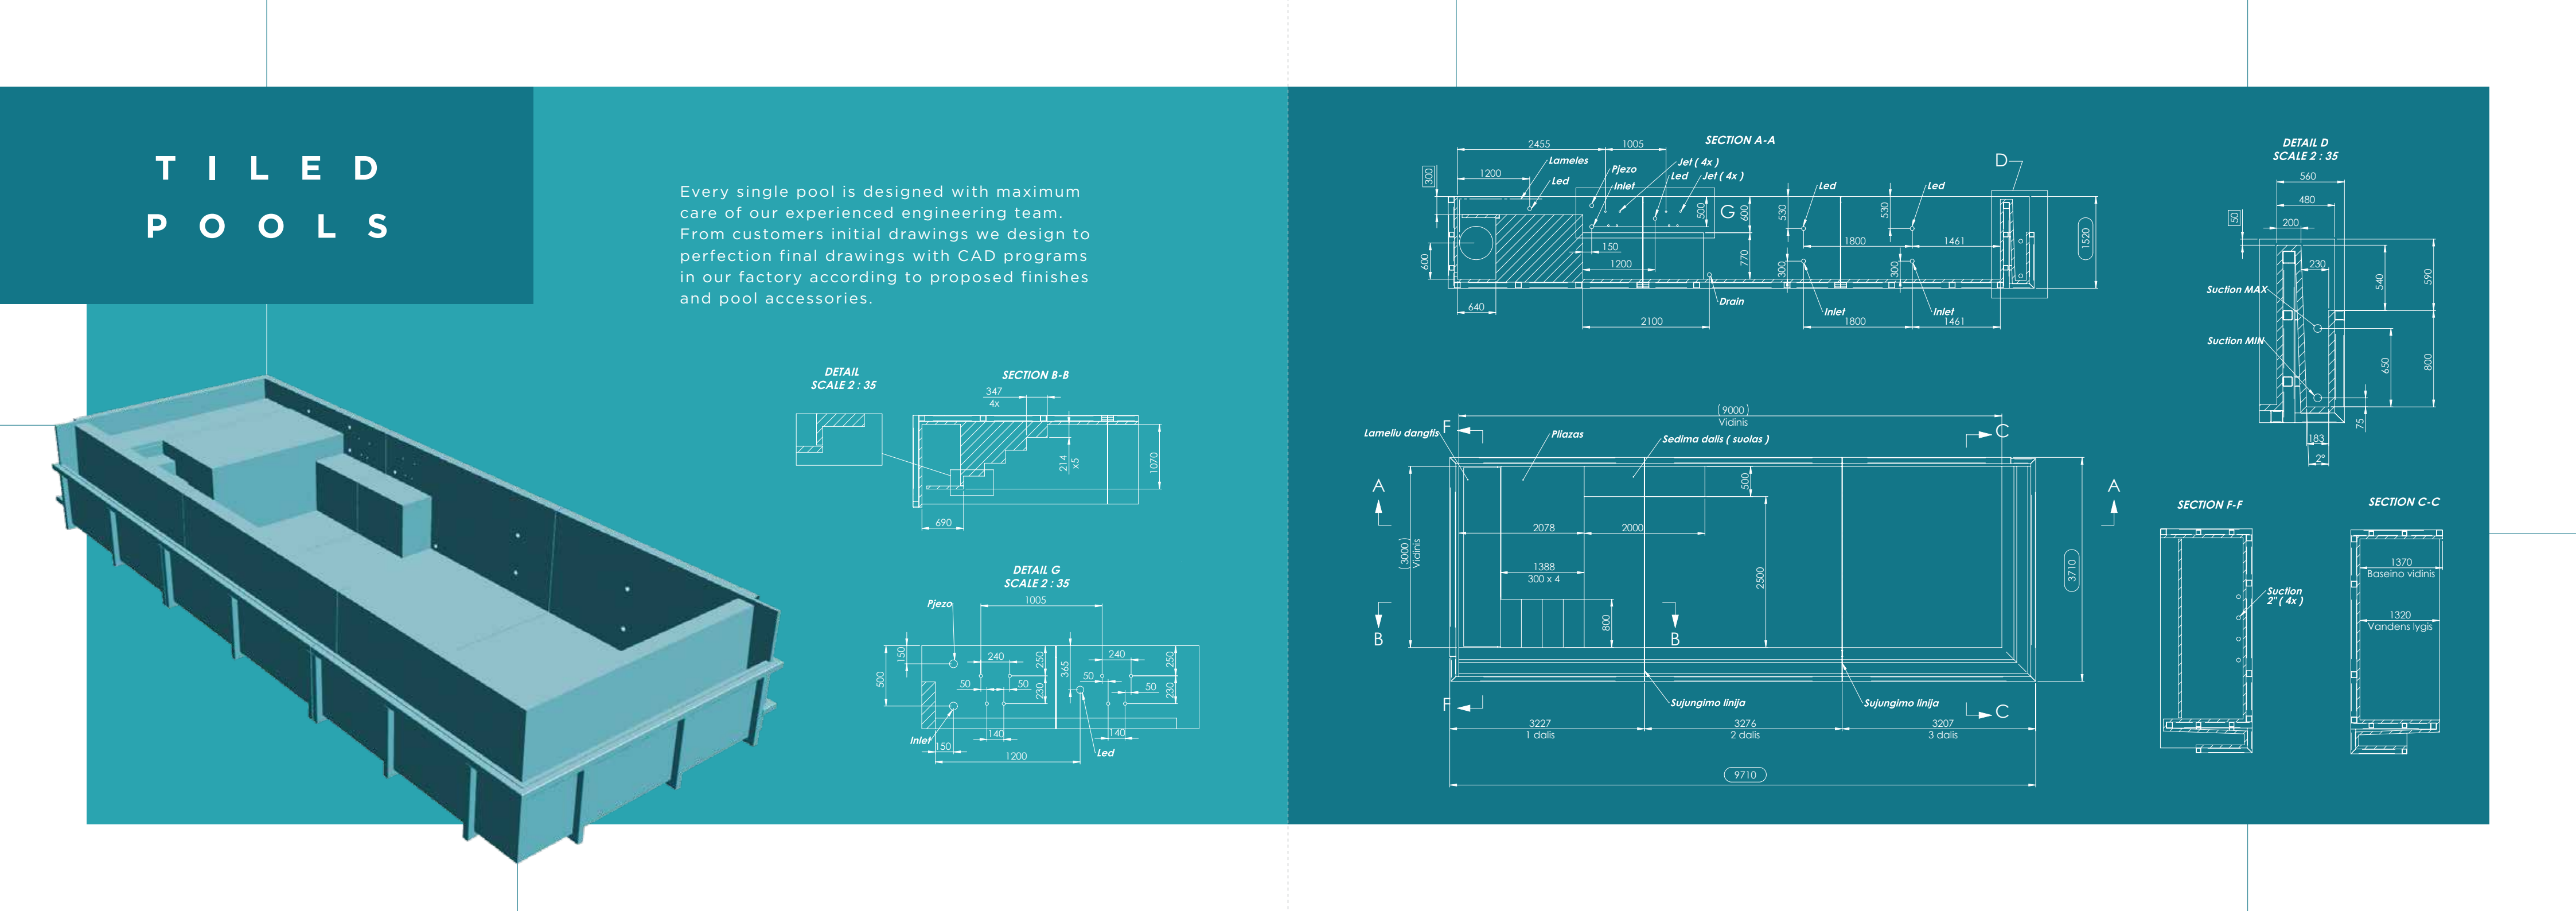

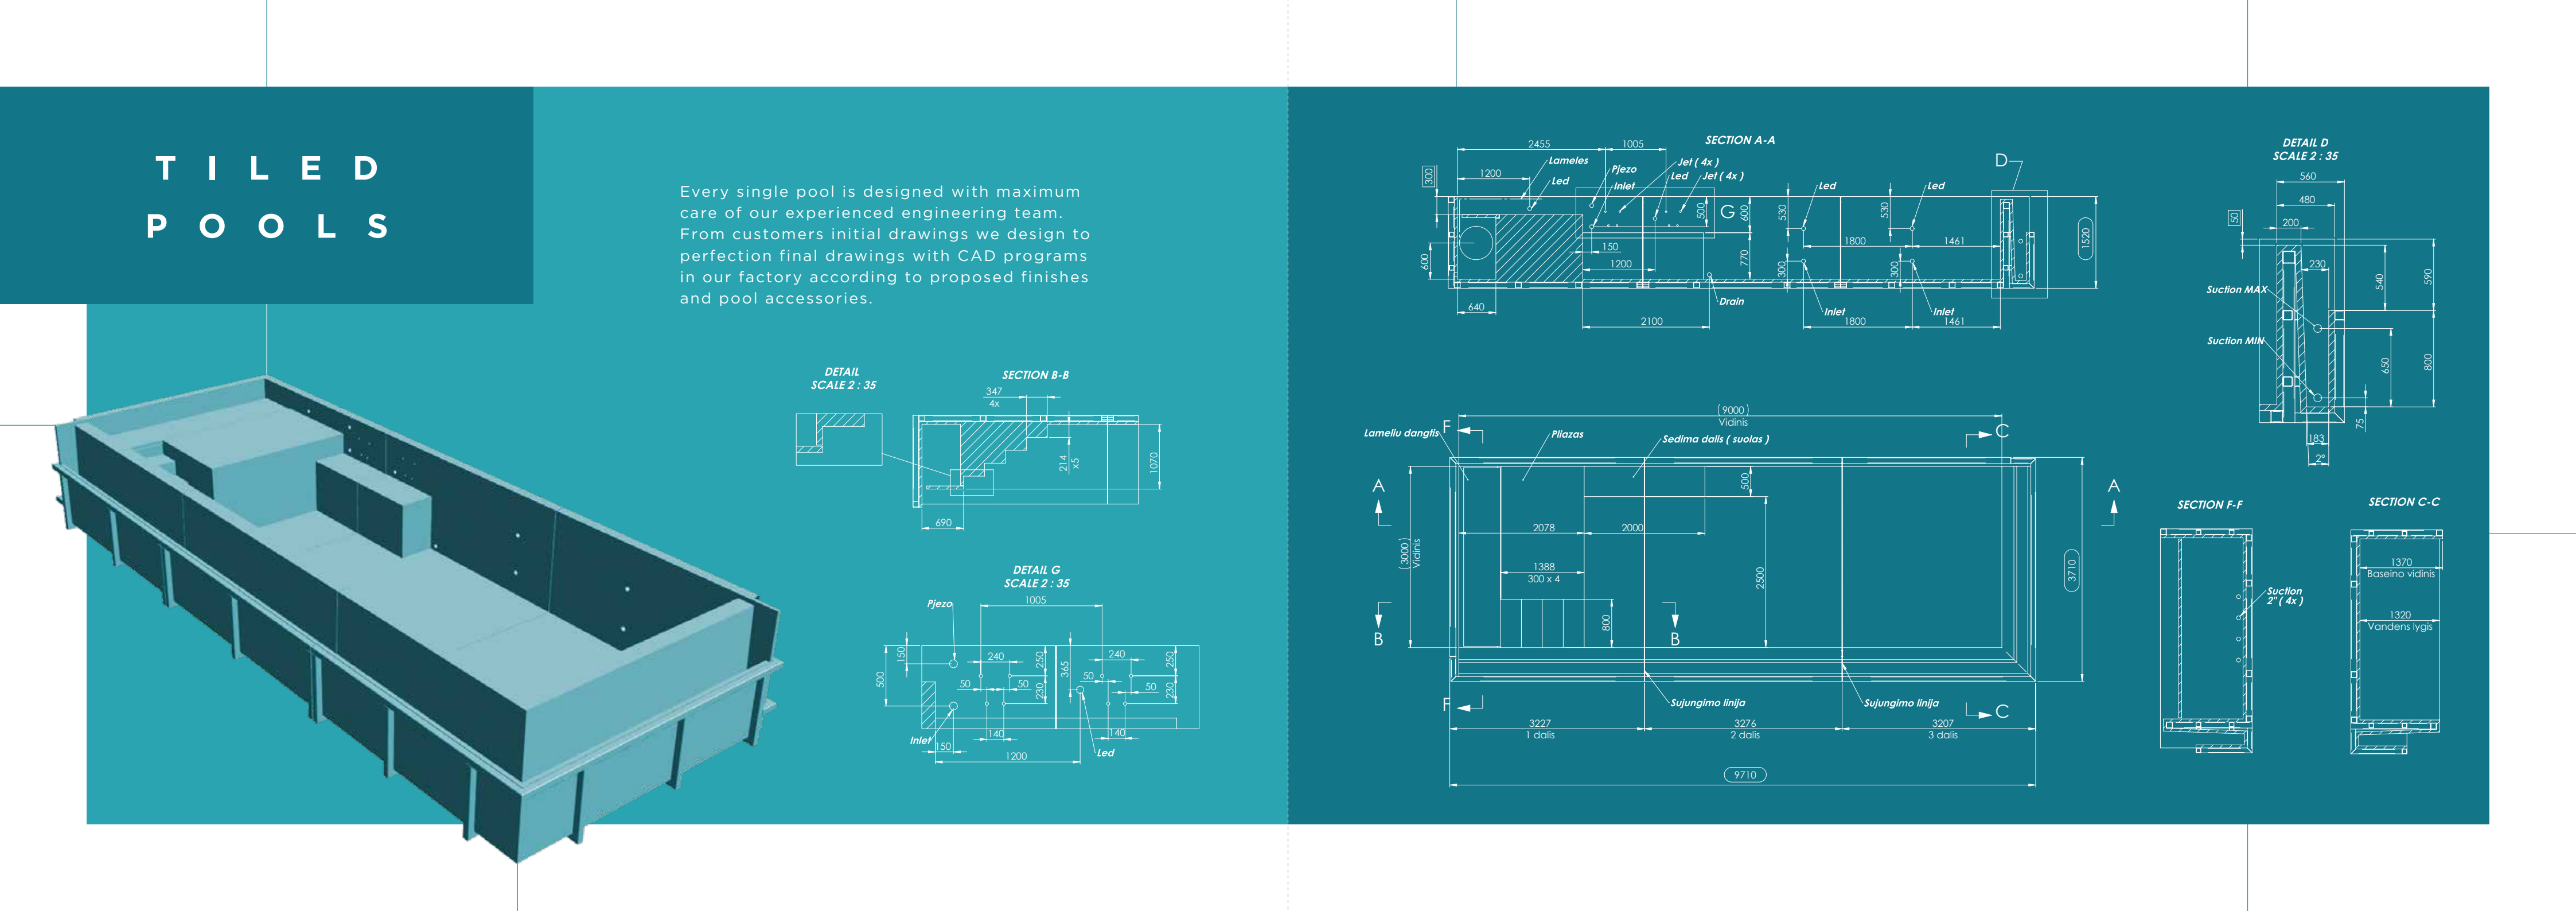

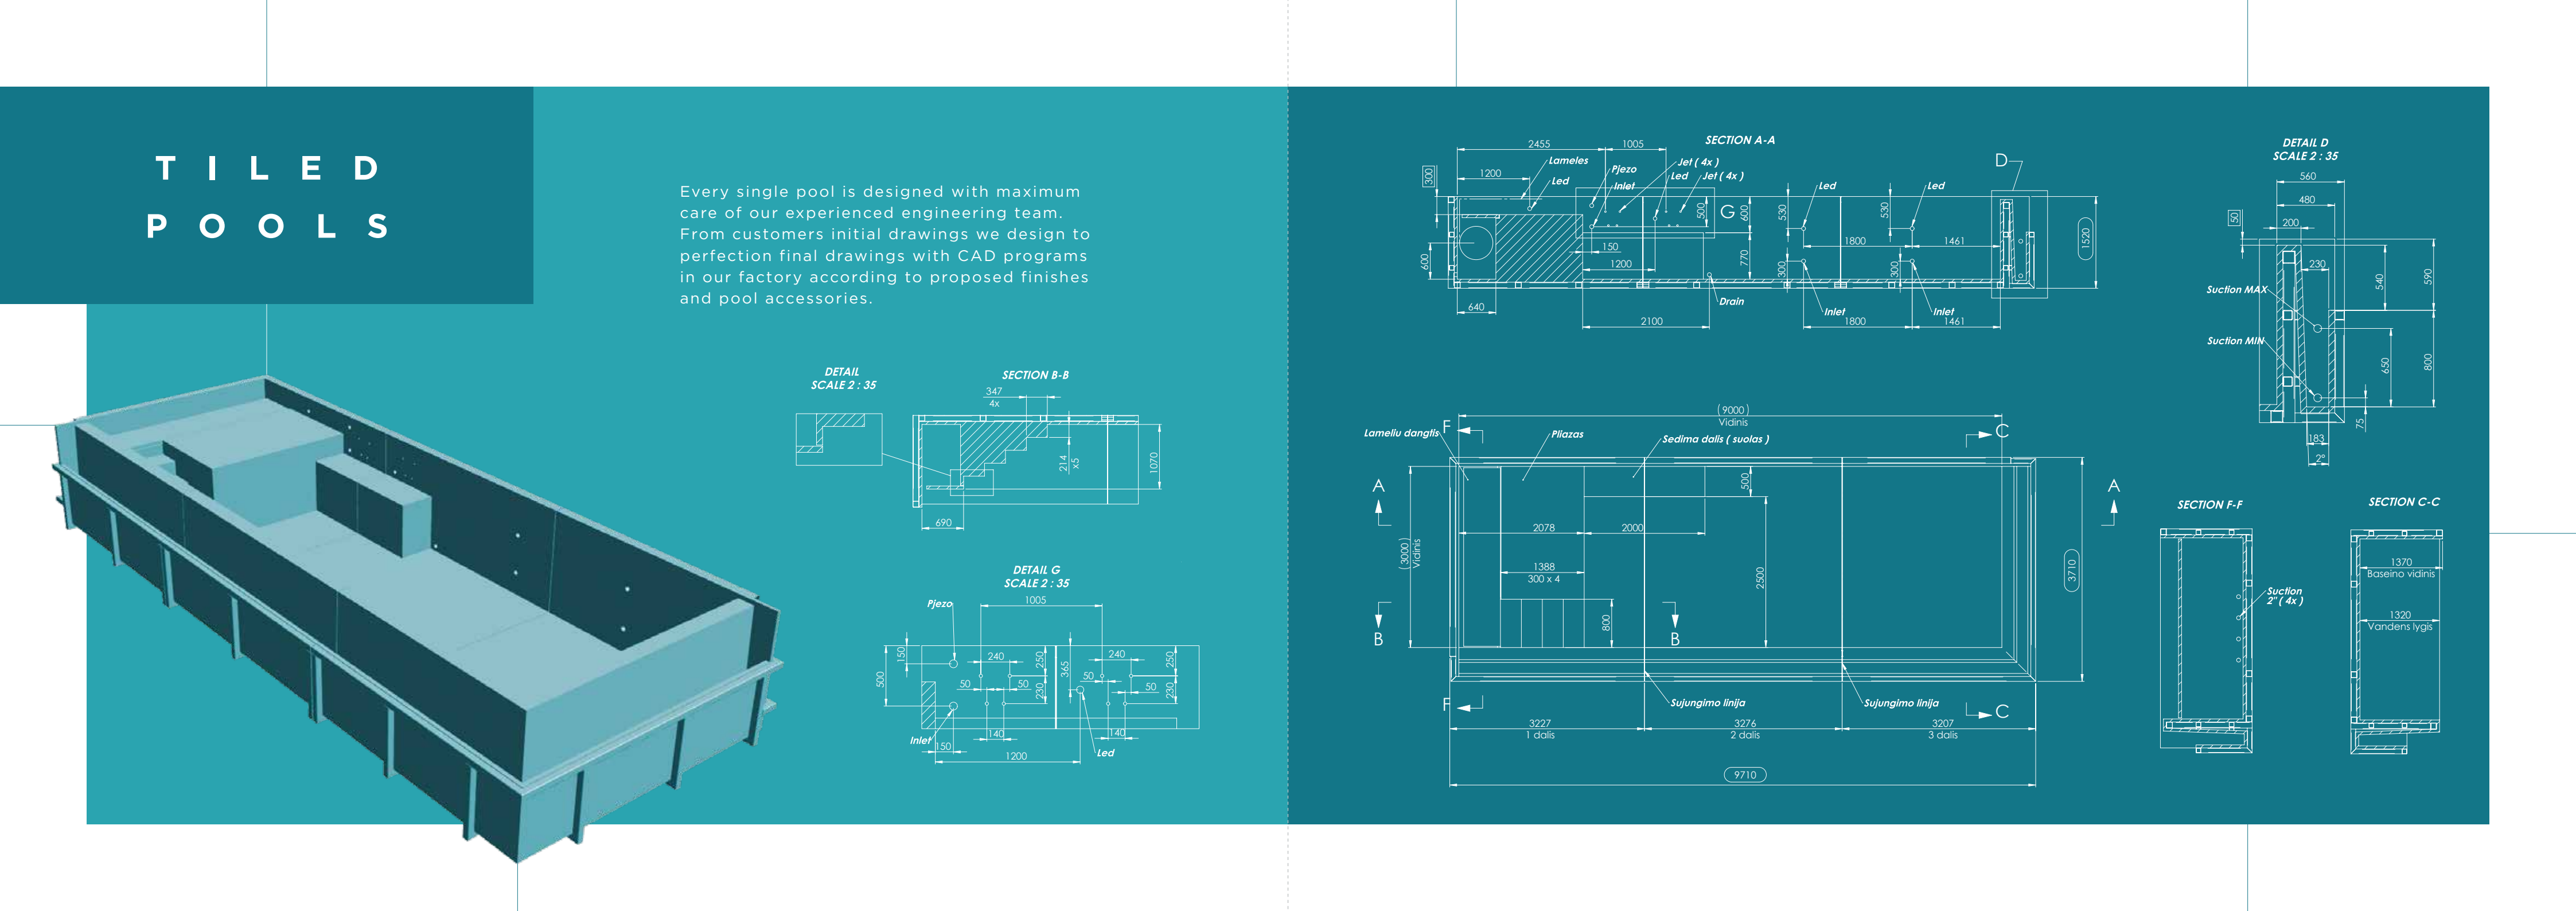

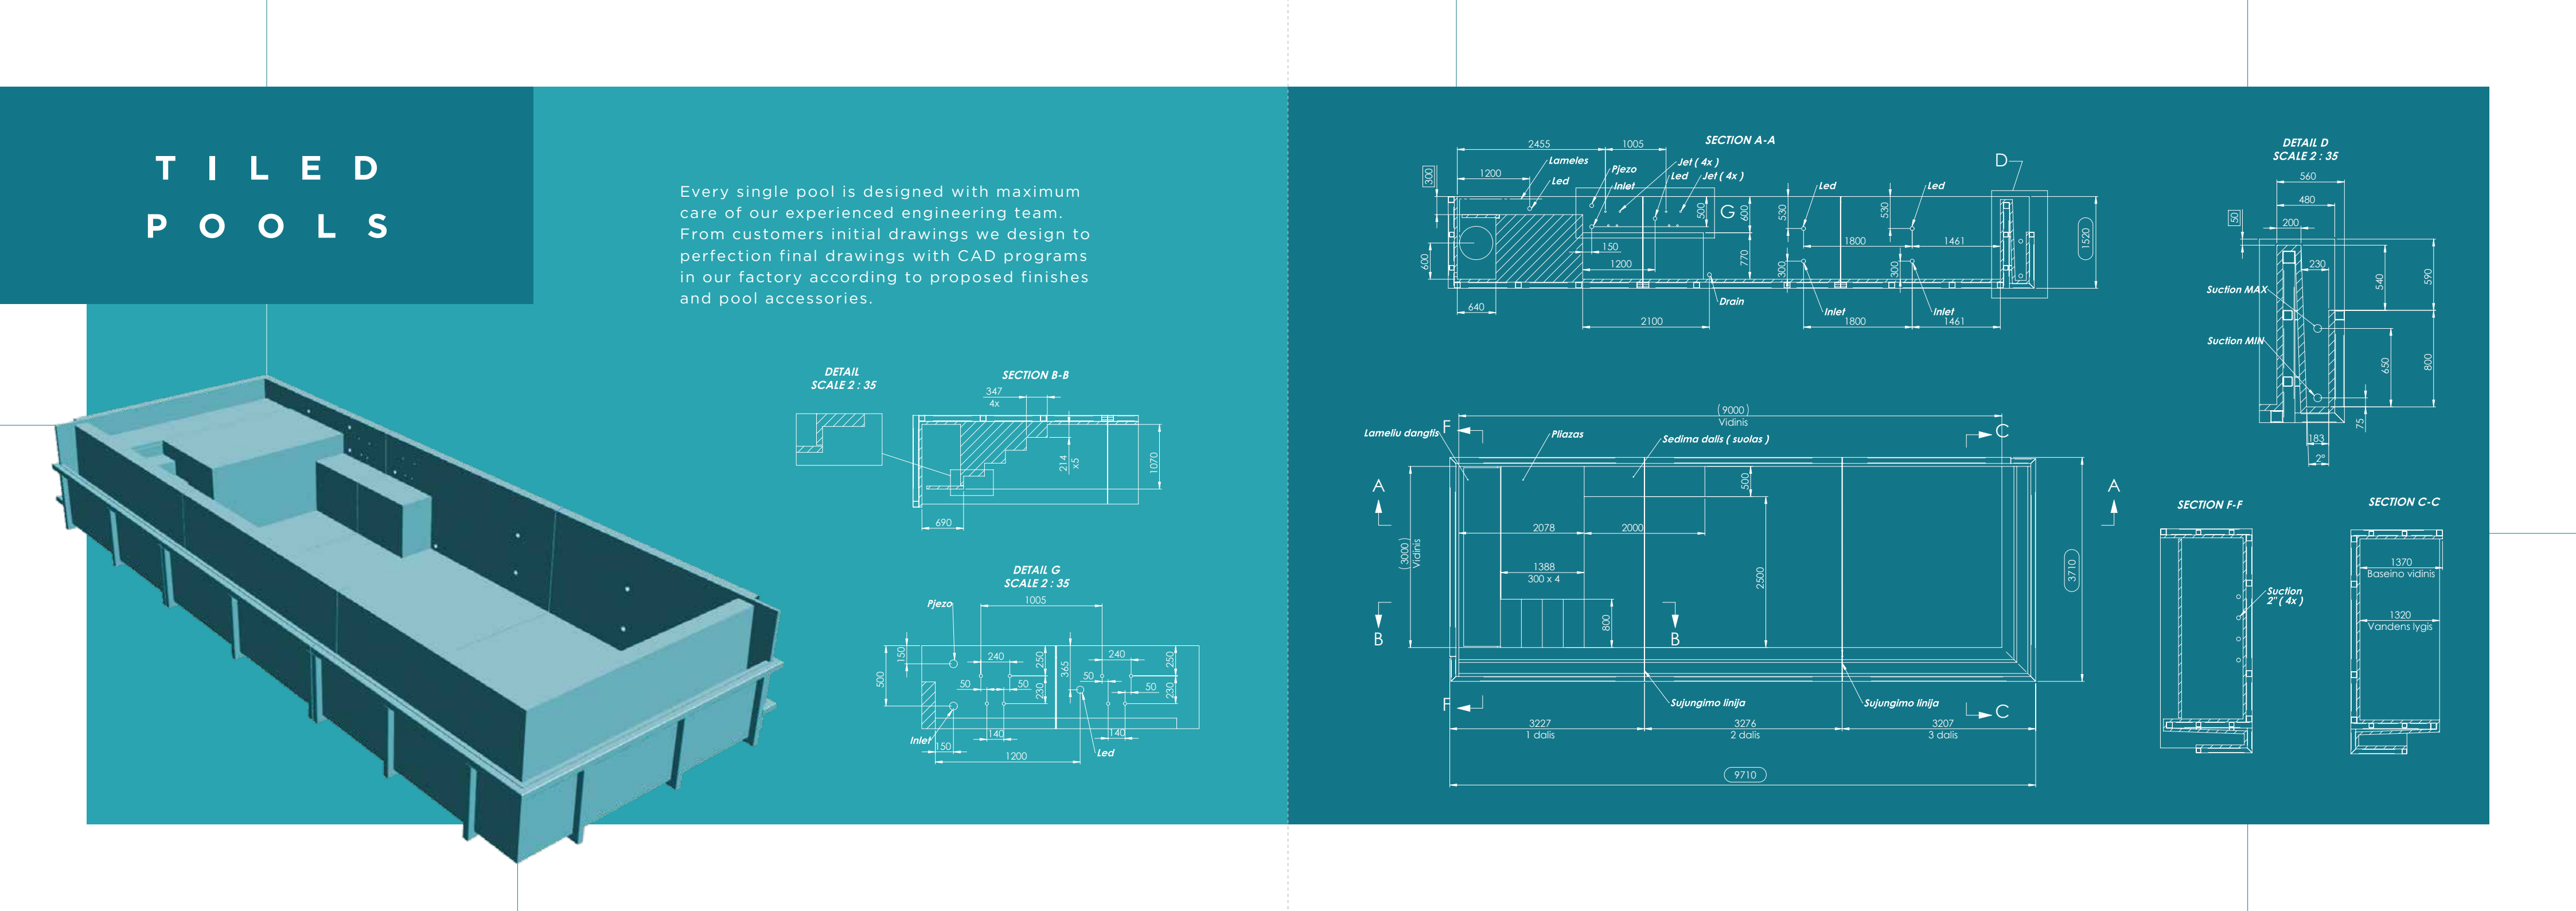

Experience the diversity of the Tilestone swimming pool range, available in different sizes & designs. The Tilestone can be produced as skimmer pool, overflow pool or infinity edge pool. Our unique manufacturing process ensures 100% leak-free pool structure prior to tiling.

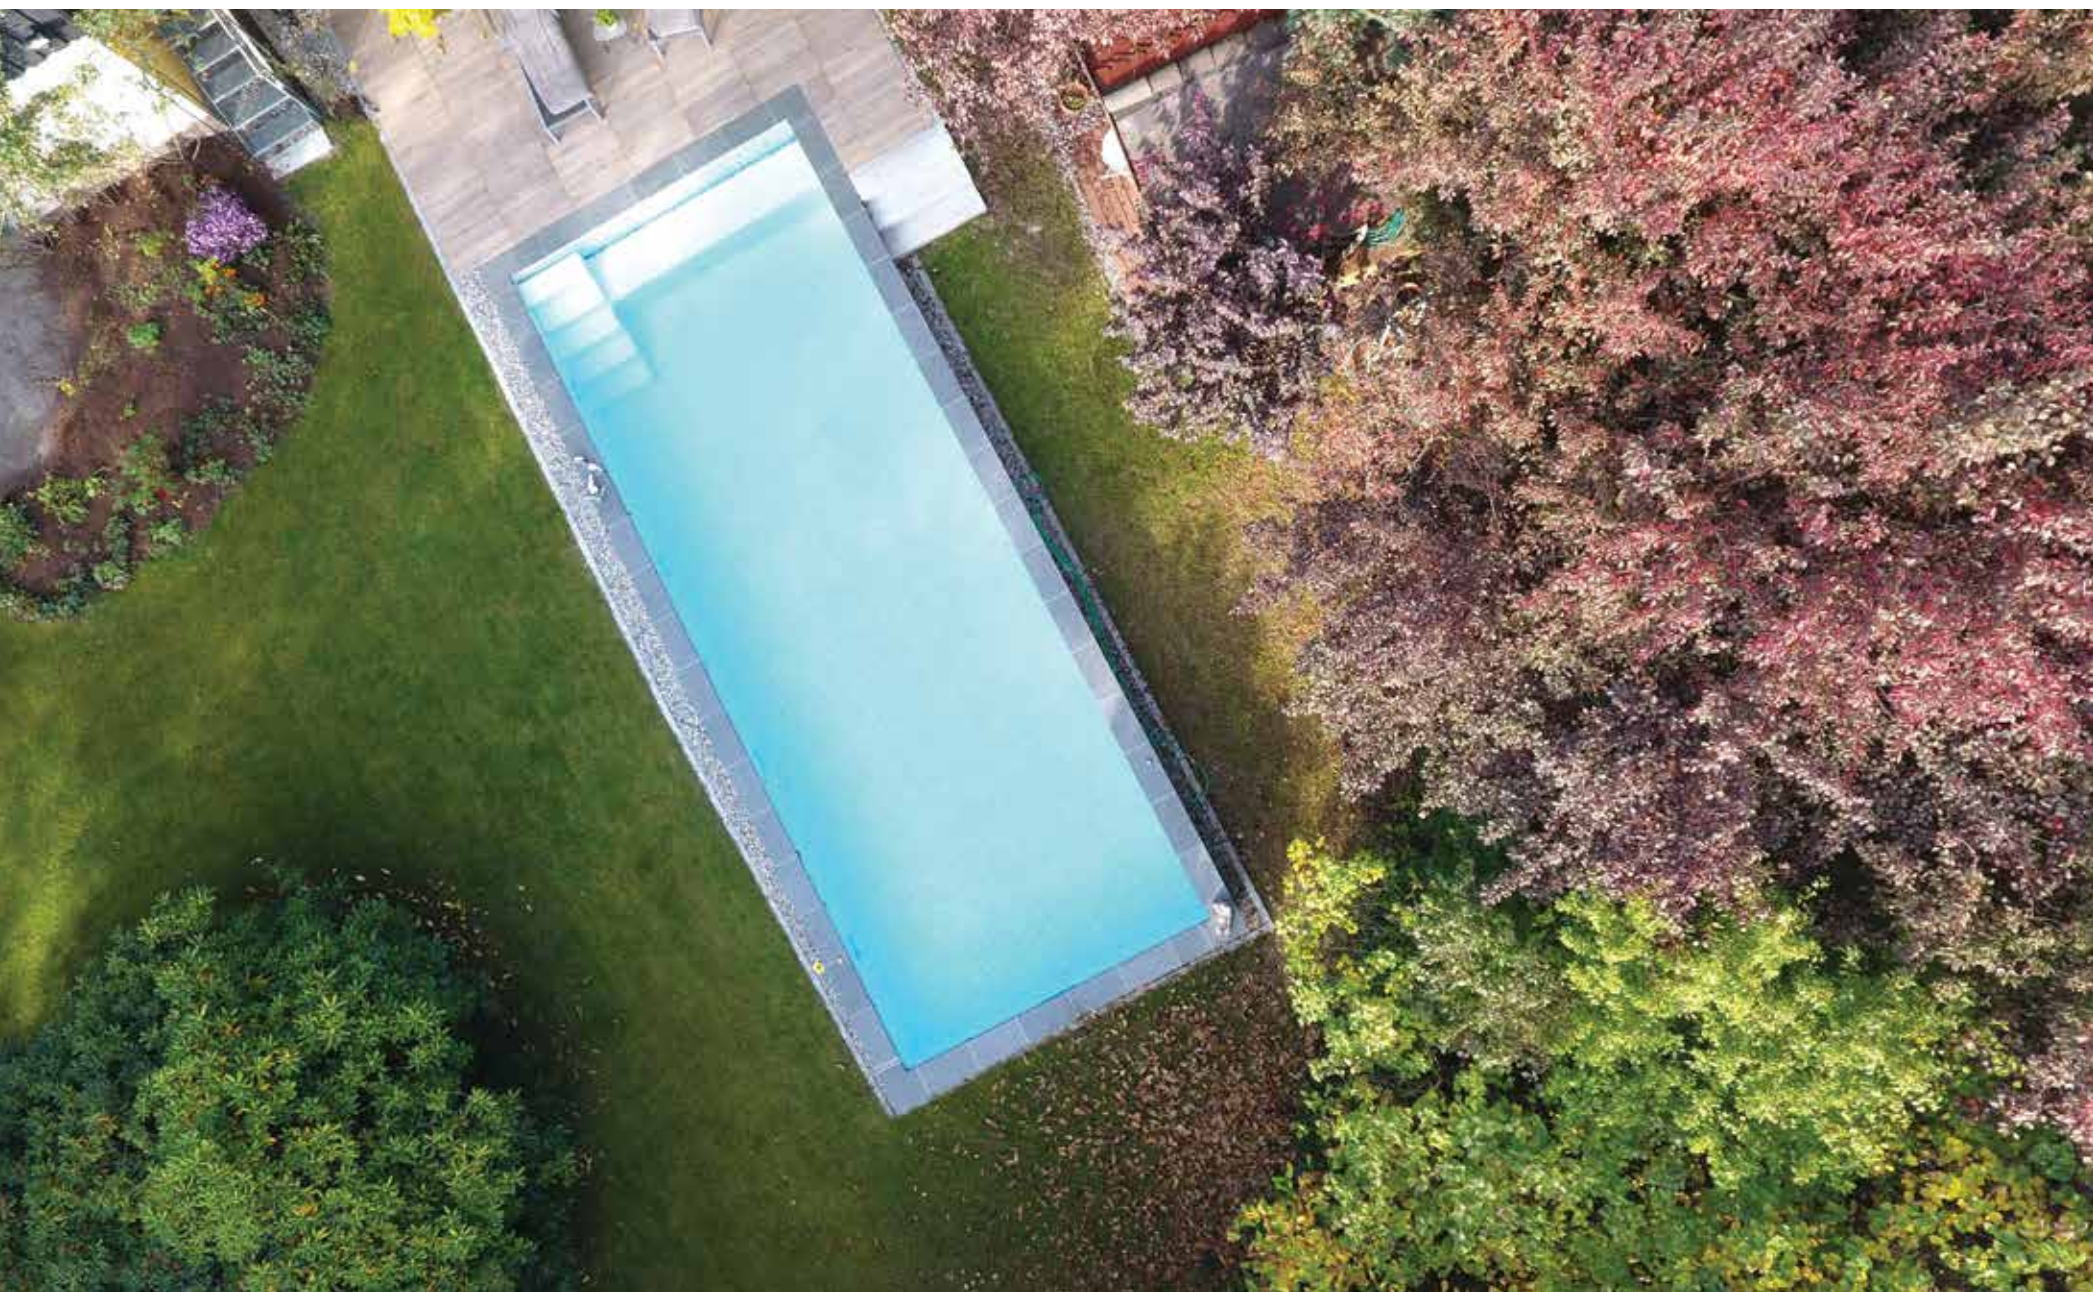

TILESTONE Pools are manufactured combining together the most reliable pool building **materials - composites** and **carbon** steel.

TILED POOLS

Every single pool is designed with maximum care of our experienced engineering team. From customers initial drawings we design to perfection final drawings with CAD programs in our factory according to proposed finishes and pool accessories.
